## Advanced Security Measures®

**Supreme Security** – All Intuit computer cheques incorporate Advanced Security Measures® (ASM®), an industry-leading and comprehensive combination of security features.

### Security Features:

- **Hologram\***: A three-dimensional image fused to each cheque appears as non-shiny when scanned or photocopied.
- **Fluorescent Fibres & Security Ink**: Features that are visible only under black light.
- **Chemical Protection**: Chemical indicators in the paper appear as stains if exposed to common ink solvents.
- **Watermark Paper**: Watermark should not appear if scanned or photocopied.
- **Toner Fuse\***: A treatment applied to both sides of the cheque to maximize toner adhesion. Protects laser printed cheques against physical fraud by foiling attempts to remove, scrape or modify the printed area.
- **Microprint**: Tiny words on front of cheque should not be legible when scanned or photocopied.
- **Document Fraud Deterrent Icon & Warning Box**: Indicates that security features are included on cheques and outlines the implications if copying, alteration, or counterfeiting is attempted.

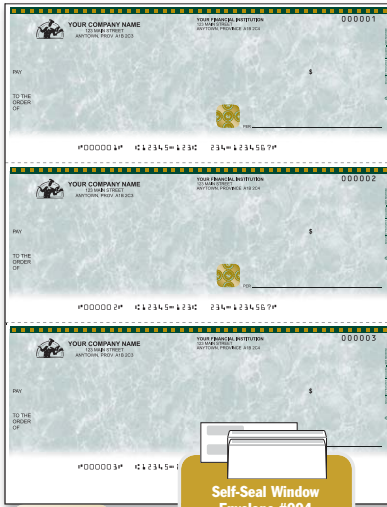

\*Available in laser format only.
