

Retirement of Online Services and Support for older versions of Quicken

In an ongoing effort to provide reliable high-quality products and services, Intuit periodically retires (also known as “sunsets or discontinues”) older versions of Quicken, thereby discontinuing online services & live technical phone and email support for these versions.

Under this policy, the most current version of Quicken (currently Quicken 2007), plus the prior two versions, will be supported, subject to certain exceptions. Sunsetting older versions of Quicken allows us to focus resources on enhancing our products and providing support for more current versions, which are used by the vast majority of Quicken customers.

When a Quicken product is scheduled to be sunset, Intuit will provide affected customers with advance notice, generally by means of this Web site. We update this Web site periodically, so please visit us again for more information as it becomes available.

Information for Quicken 2002 customers

As of March 31, 2007 in accordance with the Quicken sunset policy, updates to online services and live technical support will no longer be available for Quicken 2002 users. As of December 31, 2007 all access to online services will be discontinued.
